## PROFILE

Software Engineering Technology student at Centennial College with an interest in web development, programming, and modern software technologies. Currently building practical experience through college coursework and personal projects using React, JavaScript, Java, HTML, CSS, and Git/GitHub.

## EDUCATION

### Centennial College - Software Engineering Technology, Optional Co-op

2026 - Present

### Heart Lake Secondary School - Ontario Secondary School Diploma

Graduated 2024

## TECHNICAL SKILLS

**Languages:** Java, JavaScript

**Web:** HTML, CSS, React

**Tools:** VS Code, Git, GitHub

**Other:** Node.js, React Router

## ACADEMIC PROJECTS

### React Portfolio Website

Developing a multi-page personal portfolio using React and React Router. Built reusable components, page navigation, forms, and responsive styling.

### Java Programming Coursework

Completed Java coursework focused on programming fundamentals, classes, object-oriented concepts, and organized source code.

### Web Application Development Coursework

Developing practical skills in modern web application technologies, including JavaScript, React, Node.js, and database concepts.

## STRENGTHS

Problem solving, willingness to learn, attention to detail, organization, and developing technical skills through hands-on projects.
